

FRESH STICK

System for impermeable food storage in bags, 6 pcs set

User manual

DESCRIPTION

For quality closing of originally-packed foods in the form of plastic bags (such as crisps, frozen vegetables, toast, rice, flour and many other) easily and as often as you like.

With this unique fastener system all the following are possible:

- even liquids can be frozen problem-free
- food can be kept fresh and dry
- lunch-packets can be transported cleanly and easily

This 6-part set contains:

- 2 fasteners "Fresh Stick" size 1 (170 mm long)
- 2 fasteners "Fresh Stick" size 2 (220 mm long)
- 2 fasteners "Fresh Stick" size 3 (300 mm long)

HOW TO USE

1. Remove the white, flexible plastic tube of the fastener "Fresh Stick" by lifting on one side and completely removing from the rail. Lay the empty rail (with the opening for the plastic tube facing upwards) flat on the work surface.
2. Lay the upper, open end of the filled bag flat, i. e. without folds over the rail. The top edge of the bag should extend min. 2 cm over the edge of the rail.
3. Place the white, flexible plastic tube directly above the empty rail and press it down, back inside the rail, beginning at one end and ending at the other end until it is locked in position again. The contents are now safe and sealed, and ready for storage, freezing or transport!
4. Remove the contents of the bag, open the fastener "Fresh Stick" as described above.

MAINTENANCE AND CLEANING

- Clean by hand under running water or in the dishwasher with normal dishwashing detergents.
- Do not use rough sponges or strong cleaning agents..

TIPS

- For optimum storage results, there should be as little air in the bag as possible when closing the fastener.

At Status we carry out the whole life cycle of our products. We take care of development, manufacture, market communication and sales, as well as provide a service centre for our users. We continuously complement our products with the wish to accommodate our users, who are our first and last checkpoint.
