

WORLD OF SPICES, 5 PIECE SET

Instruction manual

SPICE UP YOUR LIFE! USE ONE GRINDER TO GRIND DIFFERENT SPICES STORED IN SEPARATE JARS.

The set consists of:

- spice grinder,
- 3 spice jars and
- stand.

All products are developed and made in Slovenia.

SPICE GRINDER

Spice up your everyday life and enjoy the aroma of spices and herbs! Status's spice grinder is distinguished by its Crushgrind ceramic core that comes with a 5-year warranty. It is much more than just an ordinary **grinder for pepper and salt**.

- The spice grinder is fitted with the "best milling system (CRUSHGRIND®) in the world" and is composed of a pure ceramic material which possesses great hardness.
- Rotation in either direction produces very good results.
- The ceramic milling mechanism is resistant to corrosion and neutral to taste.
- The abrasion-free ceramic milling mechanism guarantees constant quality over many years of use. Even the hardest of spices such as nutmeg and pepper can be ground effortlessly.
- The aroma-tight lid protects the ground material from steam and dampness, and conserves the full aroma of the spices. Simultaneously, you can use the lid as an aid to dosage and grind directly into the lid.

Status's spice grinder is distinguished by its component parts:

- **mill** with ceramic core and airtight cover that preserves the aroma of spices,
- **spice jar** (volume of approx. 100ml) serving as a component part of the grinder and a jar for storing spices.

USAGE

- Put herb or spice in a spice jar.
- Screw the upper part (grinder) in the jar.
- Twist and grind the spices. Thanks to the integrated return mechanism you can grind without changing your grip
- By moving left or right grey screw in the grinder you can regulate the thickness of grinded spice.

MAINTENANCE AND CLEANING

- **Spice jar:** manually or in the dishwasher with a normally available detergent.
- **Spice grinder:** Some spices such as nutmeg contain large amounts of oil and can block the milling mechanism. Cleaning is best performed by milling some salt. Alternatively, you can remove the lower component by unscrewing the grey adjustment wheel and cleaning with a small brush.

SPICE JAR

Two in one – a jar for storing spices and herbs and a component part of Status's spice grinder! Preserves the flavour and aroma of spices.

USAGE

- Remove the cover from the jar and attach the jar to the grinder.
- Remove grinder's round cover to see the grey knob (grind size regulator).
- Turn downwards and grind spices onto your food by rotating the jar.
- The grind size of spices and herbs can be adjusted by turning the grey regulator (to the right or to the left).

MAINTENANCE AND CLEANING

Spice jars can be cleaned with conventional detergents under tap water or washed in the dishwasher.

Materials

Jars for storing spices are made of glass.

THE STAND

The stand serves as a perfect dinner table decoration and is designed for storing the grinder and all three spice jars.

USAGE

Into the stand place the spice grinder and other three bottles with spices and place it on the table. So you have a grinder, by optionally changing to different bottle with spices. Spices grind directly on the food and therefore preserve the essential oils fresh ground spices.

MAINTENANCE AND CLEANING

The stand can be cleaned with conventional detergents under tap water or washed in the dishwasher.

At Status we carry out the whole life cycle of our products. We take care of development, manufacture, market communication and sales, as well as provide a service centre for our users. We continuously complement our products with the wish to accommodate our users, who are our first and last checkpoint.

We strive to make Status - kitchen innovations a brand of high-quality products that are efficient and easy to use. Our range of products includes products for storing food in vacuum as well as without vacuum, utensils for cooking and preparing food, home equipment products and others.
