

MULTIPURPOSE OPENER

Instruction manual

DESCRIPTION

The multifunction can opener combines 5 different functions in one device. Without effort open all doses with and without the clip-closures and bottles with screw caps.

Advantages:

- Multipurpose as it combines five functions for opening cans and bottles (tin cans, pull tab cans, plastic bottles with screw caps, bottles with crown caps).
- Its main advantage is that it does not come in touch with the can contents; makes a clear cut and leaves no sharp edges on a can or lid.
- There is no danger of cutting yourself

HOW TO USE

It has five functions:

1. Safety can opener

Finally, no sharp edges and no metal shavings more! The knife cut the disc sidewall of the lid without damaging the can!

During the cutting process, the cut edge of the lid inwards remain even, so that no sharp edges and no more metal shavings can be chipped. The lid can be closed again for short-term closing of the doses used.

By opening the cans on both sides, the content can be easily removed in one piece or slide out. This can opener is also suitable for the opening of dented cans.

2. Ring

The hook at the lower end of the handle is suitable for cans such as canned fish or canned with peanuts.

3. Clip-opener for beverage cans

The upper end of the handle is a lever on the clip at the top doses clamped - this is all beverage cans (beer, soft drinks, water, etc.). It is easy to open, with fingers and fingernails protected.

4. Screw-opener

The screw-opener at the end of the lower grip is fixed to the bottle cap - a variety of normal bottle opener needs no effort to open and reseal.

5. Bottle opener (bottle)

Lift from the crown cork with the cap lifter.

MAINTENANCE

There is no special cleaning necessary. If needed, clean with soft cloth.

At Status we carry out the whole life cycle of our products. We take care of development, manufacture, market communication and sales, as well as provide a service centre for our users. We continuously complement our products with the wish to accommodate our users, who are our first and last checkpoint.

We strive to make **Status - kitchen innovations** a brand of high-quality products that are efficient and easy to use. Our range of products includes **products for storing food in vacuum as well as without vacuum, utensils for cooking and preparing food, home equipment products** and others.
